This phone number can be your regular main phone number for your Spa or any other number you elect.

3. Spa Text Description:

Online your Spa will be featured and your Listing will include up to 125 words describing your Spa. You do not describe your discounts in this section, which is the next item listed below. For this section you need to send up to 125 words that best describes your Spa to help entice more customers.

4. Digital Discount Certificate Text:

You may have as many Digital Discount Certificates posted on our web site as needed. The layout and physical design are part of the web site and that is HalfPriceSpa.com responsibility. The following items are needed to complete the digital certificates.

A.) We need a text explanation of what your Spa is offering as a discount. The text can be up to 100 words and we highly suggest you include precise description telling the potential customer which services are valid with this Digital Certificate. Be sure to list any limitations like valid days, types of service, specific package, etc. The fewer the limitations, the more we will sell.

B.) What is the regular price of the service you want to sell?

C.) What is the face value of the certificate you want us to sell?

Below is a sample of what a Digital Certificate text and logo image appear online.

You, the Spa, can select the size of the digital certificate as any number between \$40 - \$100.

If you want to offer a larger discount, lets say for example you want to allow somebody to apply four \$100 face value certificates to a \$500 package, your Spa will allow the customer to buy 4 x \$100 digital certificates.
